

ABOUT US

Shopemet Networks Pvt Ltd was built up in 2018 to offer an extensive assistance to makers of Mechanical Equipments, Machineries, Electronic Equipments and building items in Indian markets just as outside India.

From our offices based at Bangalore, we arrange deliveries of a wide range of quality raw materials which we source from leading manufacturers worldwide. Our expertise in all aspects of procuring and moving goods has resulted in us becoming a leading supplier to manufacturing industries in our market territories.

Shopemet Networks supplies just about any raw material which might be needed, and we control the entire process of moving goods from factory to destination to ensure minimum delays of your consignments. We are also able to consolidate mixed container loads of smaller items at our warehouse, again ensuring safe and efficient carriage to final destination.

Our Product has undertaken a most ambitious project — to be the Google of local industrial supplies materials inventory data. We aim the site to reach 1 Million User with our beta Version and we are trying to create a massive database of real-time inventory from Industrial material suppliers, Traders and Importers Inventory.
